ROBERT T. HALL, *Assistant Secretary
for Economic Development*

U. S. DEPARTMENT OF COMMERCE

Economic Development Administration

DESIGNATED AREAS

under the
Public Works and Economic Development Act of 1965, as amended
Public Law 89-136

Explanation

This is a listing, as of the publication date of this book, of all areas officially designated as redevelopment areas under the Public Works and Economic Development Act of 1965, as amended.

In the second column of the listing, there appear symbols indicating various bases upon which areas qualify for eligibility for financial assistance under the Act. The qualification basis, or bases, for each redevelopment area is indicated by one (e.g., "2"), or a combination (e.g., "28"), of the symbols defined below.

- 1: Substantial and persistent unemployment
- 2: Low median family income
- 3: Indian reservations or trust or restricted Indian-owned land
- 4: Unusual and abrupt rise in unemployment resulting from the loss, removal, curtailment or closing of a major employment source
- 6: Special impact area
- 7: Decline in per capita employment
- 8: Substantial unemployment

The maximum grant rates for public works and development facilities projects shown in the fourth column are based on economic characteristics of the areas to which they apply. The maximum grant rates for projects in designated areas, determined by relative needs, are as follows:

| Projects | Maximum grant rates (percent) |
|---|-------------------------------------|
| (i) Projects of Indian tribes which are or will be located on Indian reservations, or trust or restricted Indian-owned land areas | 100 |
| (ii) Projects located in redevelopment areas designated under section 401(a)(6) of the Act, applied for by States or political subdivisions thereof which have demonstrated they have exhausted their effective taxing and borrowing capacity | 100 |
| (iii) Projects located in redevelopment areas designated under section 401(a)(6) of the Act applied for by community development corporations (as defined in 13 CFR 301.2) which have demonstrated they have exhausted their effective borrowing capacity | 100 |
| (iv) Projects located in redevelopment areas designated under section 401(a)(6) of the Act but which cannot meet the requirement of paragraph (ii) above | 80 |
| (v) Projects located in areas designated under title IV of the Act, which areas have been designated by the President of the United States under the Disaster Relief Act of 1970 (Public Law 91-606) or the Disaster Relief Act of 1974 (Public Law 91-288), provided: (a) Such areas retain both EDA and disaster designations, and (b) Such concurrent designation has not exceeded 1 year in duration | 80 |
| (vi) Projects located in areas designated under title IV of the Act in which the median annual family income is \$3,743 or below or the average unemployment rate for the preceding 24 months is 12% or higher | 80 |

- (vii) Projects located in areas designated under title IV of the Act in which the median annual family income is \$3,744 to \$4,093 or the average unemployment rate for the preceding 24 months is 10% to 11.9% 70
- (viii) Projects located in areas designated under title IV of the Act in which the median annual family income is \$4,094 to \$4,443 or the average unemployment rate for the preceding 24 months is 8% to 9.9% 60
- (ix) Projects located in areas designated under the addendum to EDA Planning Directive No. 52, Chapter 5, under title IV of the Act 50
- (x) Projects in all other areas 50

Note: No currently designated redevelopment area shall have such designation terminated before September 30, 1979, unless the local governing body of the area qualified under existing criteria for de-designation specifically requests de-designation action.

Currently, there are a number of areas which are not designated although they meet the statistical criteria for designation. These areas have been notified of their statistical qualification and advised that they may become designated if they submit to EDA an official request in writing that they be designated and take appropriate action to incorporate their economic planning in an overall economic development program (OEDP) which is acceptable to EDA. The qualification status of any area may be obtained from the EDA Qualification Division, Room 6226, Main Commerce Building, 14th Street and Constitution Avenue, Washington, D. C. 20230; telephone (202) 377-4241.
